

## Product Designer and Woodworker

204 Pallet & Packaging is offering a unique opportunity for an individual seeking a challenging, hands-on position designing and building wood packaging solutions. The company, located in Stony Mountain, MB, provides a wide variety of custom crates and pallets to our industry diverse customer base.

Reporting to the General Manager, you will be conducting all product design at the company, as well as working in the shop building customer products. The split between design and shop varies week to week but will be approximately 50/50. Design wise, you will be interacting with our customers to develop innovative packaging solutions that meet their needs in a cost-effective manner. A strong mechanical design background is required and ideally, you have specific experience with wood. Building wise, you are comfortable using a wide range of woodworking equipment and have experience building many different things.

To be successful in this position, you will have the following qualifications:

- Strong, practical mechanical design skills with a CET or C.Tech designation preferred
- Strong, wide ranging, woodworking skills
- Ability to prepare bill of materials, shop drawings and quotes
- Good customer service and communication
- Strong skills with MS Office, and ideally, CAD software and basic networking/IT skills

Please send your cover letter and resume to [info@204palletpackaging.ca](mailto:info@204palletpackaging.ca). The compensation package will be experience based and we thank those that apply, but we will only be contacting candidates that we wish to interview.
