

About the job

Senior Engineer

Location: Oakbank or Brandon, MB, with travel to various sites across Saskatchewan and Manitoba

Wage: salary of \$100,000 or more, depending on experience

Timeline: full time, permanent

Site work schedule: typically four ten-hour days, with overtime paid after forty hours

Office work schedule: typically five eight-hour days, with overtime paid after forty hours

Our Team

Join Pier Solutions as we provide collaborative and innovative bridge engineering and construction services across Manitoba and Saskatchewan. With aging infrastructure and limited public budgets, municipal and provincial governments are forced to strategically extend the lifespan of their infrastructure, namely bridges. Pier Solutions strives to work alongside municipal, provincial, Indigenous, trail association, and short line rail clients, tailoring bridge maintenance and construction solutions to specific contexts.

We pride ourselves in conducting our work collaboratively and with utmost integrity, to ensure our projects are delivered at the highest level of professionalism. These Pier-values are core to our team:

Passionate: we are passionate about our work and our role in improving communities

Innovative: we love to think outside the box and develop custom solutions

Economical: we maximize our clients' return on investment

Relational: we care about the clients and communities we serve

Apply today to join the prairie's leading rural bridge company! At Pier Solutions, we look to utilize the gifts of everyone on our team. Our services result from the unique passions, skills and personalities of each employee. Growing and supporting our employees' passions with challenging projects, training, resources, and family benefits is our commitment.

Job Description

As Pier's Senior Bridge Engineer, you are tasked with taking an entrepreneurial approach to securing contracts, fostering innovative solutions, building relationships with clients, mentoring and leading our team, and providing strategic input to the company as a whole. If you have a passion for bridge construction, project management, and design, this job is for you!

In this position, your responsibilities would include the following:

Leading large project proposal development and contract negotiations

Providing senior project management leadership on major projects, delegating responsibilities, and mentoring our team of project managers

Providing the primary point of contact for clients and leading client meetings, fostering a collaborative, and trusting environment

Overseeing internal kickoff meetings, check-ins, and debriefs throughout the course of projects

Working together with project managers to report on project progress, ensuring procedures and requirements are followed or improved

Maintaining an exceptional standard of professionalism and respect on site for everyone involved, and managing conflict as it arises

Resolving technical and construction related challenges internally and externally

Providing design expertise and mentorship for EITs

Maturing the overall services and capacities of our operations team

Overseeing project schedules and teams for multiple projects

Developing corporate strategic plans for operations, ensuring challenge, preparedness, and stability for Pier's operations team

Education and Experience

10 plus years of project management and/or operations management experience

Leadership experience and training (of varying types) is required

Demonstrated exceptional communication, planning, and time management skills

Civil tech diploma or civil engineering degree

Construction/carpentry experience

Character

Goal oriented; team driven; service focused

Collaborative, innovative, and creative style

Ability to inspire teams to reach new levels

Other Requirements

Desire for professional development

Ability to work on the road in Manitoba and Saskatchewan

Ability to perform physically demanding field work

Class 5 license

Application

Please submit your resume and cover letter to team@pier-solutions.ca. The position will remain open until March 10th, 2022 at a minimum or until filled. Please email us if you intend to apply or if you have any questions.

We are excited to hear from you!
