

PRE-CON BUILDERS

Meet Pre-Con Builders Ltd.:

Pre-Con Builders' commitment is to fully understand the needs of their clients and strive to exceed expectations by providing total design and construction services. They create value through our commitment to quality and establishing client trust with proven results. They specialize in complete design-build and construction services for all types of projects in Winnipeg and surrounding areas. They tailor our scope of services to meet the unique requirements of our clients; including in-house working drawings, engineering, construction and project management services for new build and retrofit projects.

At Pre-Con Builders, they have the necessary skills, commitment and resources to successfully complete your project, on time and on budget.

How to Apply:

Please apply online at <https://jobs.peoplefirsthr.com/#/jobs> or by emailing your resume (on MS WORD format) in confidence to Sarah Antymniuk at santymniuk@peoplefirsthr.com.

For further information about this career opportunity, please feel free to contact Sarah Antymniuk at (204) 938-4093.

We thank all applicants for their interest; however, only those selected will be contacted for an interview.

Drafting Technician

Winnipeg, Manitoba

On behalf of our client, Pre-Con Builders Ltd., we are currently recruiting for a Drafting Technician in Winnipeg. This is a great opportunity for a Drafting Technician who is ready to take a step into a leadership role with the opportunity to mentor and guide other technicians on the team.

Pre-Con Builders Ltd has been in the construction business long enough to know that no two projects are alike and, in order to meet their clients' objectives, they must be able to call on a wide variety of skills and resources. Their integrated approach gives them that flexibility, and more importantly, the expertise to provide a full range of construction related services including Design-Build, General Contracting and Project Management.

As a Drafting Technician, you will be responsible for:

- Overseeing and leading a team of two to three drafting technicians.
- Developing preliminary drawings and conceptual designs from RFP documents, notes, diagrams, or sketches.
- Liaison with owners to develop final floor plans and building designs.
- Determine Zoning and Building Code requirements.
- Creating accurate, detailed architectural and structural contract drawings using Revit software.
- Checking and verifying design drawings to conform to specification and design data.
- Preparation of As Built drawings.

You and Your Experience:

- Proficient in the use of AutoCAD and Revit.
- A minimum of 5 years' experience as a drafting technician.
- Experience in drafting architectural and structural designs for Commercial and Multi-Family Buildings.
- Experience with the Prescriptive Path to meet Energy requirements.
- Analysis and interpretation of the City of Winnipeg Zoning Requirements and the National Building Code.
- Experience providing renderings of proposed buildings using Revit software.
- Experience with Design Build construction with minimum supervision.
- Strong Computer skill in Microsoft Office Suite.
- Experience with Pre-Engineered structures.
